

Vantage Natural Oils Business to Operate as Vantage Specialties Spain

BARCELONA, SPAIN – April 4, 2022 – Effective immediately, Vantage Specialty Chemicals™ (“Vantage”) will do business in Spain as Vantage Specialties Spain, S.L.U. (“Vantage Spain”), formally completing the company’s transition from Textron Plimon which it acquired in 2019. Vantage Spain is a provider of high-quality natural oils for the personal care, cosmetics and food markets from its state-of-the-art manufacturing facility near Barcelona.

“This transition is more than a name change,” said Alexander Snell, Senior Vice President, Vantage EMEA. “It marks another step in Vantage’s growth and in building a more unified market presence as a leader in natural chemistries, which enable market-focused, customer-tailored solutions and formulations for consumer and industrial markets in EMEA and around the world “

Vantage is built on a successful strategy of organic growth and powerful acquisitions. In EMEA, Vantage acquired Leuna Tenside GmbH in Germany in 2018 shortly followed by Textron Plimon. In the U.S., recent Vantage acquisitions include two food industry companies, Mallet and Company and Amarna, and most recently, JEEN International, a naturally derived specialty ingredients and blends company for the personal care and cosmetics market.

About Vantage™

Vantage™ is a leading specialty ingredients company providing tailored solutions through its naturally derived ingredients and formulations for the personal care, food, consumer and industrial end markets. The Company is vertically integrated From Farms to Formulations™, possessing world-class farming, manufacturing and formulation facilities across three continents.
